A lucky day!

by Anna Thompson

Last week something happened to me that changed my life forever. It was Saturday morning. Usually I have a dance class on Saturday mornings, but that day I slept late and missed my bus. It was my own fault – I should have gone to bed earlier the night before. So I said goodbye to Mom and walked down the road to catch a later bus into town. I thought I might go shopping instead. On my way I stopped to buy a magazine, and I started to read it at the bus stop. There was a special competition that month – write an essay about family life and win \$10,000. I started to think about all the things I would do if I won the competition. I'd buy lots of new clothes, of course, and a new computer. And if I had that amount of money, I'd go on a great vacation with my friends. The last day for entering the competition was that day. I wondered what I should do. Should I forget about it and go into town? After all, money isn't everything! Or should I go home and write my essay? I decided to go home and enter the competition, because I thought that if I won, it would change my life.

As soon as I got home, I knew that something was wrong. The house was quiet, but I knew that Mom should have been at home. I called her name, but there was no reply. I went upstairs, and discovered my mom lying on the floor. She had fallen and hit her head. I quickly ran to the phone and called 911, then tried to make Mom as comfortable as possible. When the ambulance arrived, they gave her some treatment, then took her to hospital. I rode with them in the ambulance. Mom's fine now, but if I hadn't gone back home, things would have been very different. So, why did that day change my life? Did I win the competition? No, but I learned that people are far more important than money!
