

1. Read the description of Larry's school of the future. Where is the book and music pod?

## Building Schools for the Future!

*The winner of our "School of the future" competition is Larry Soares, Class 9.*

When you enter Larry's school, the electric stairs are on the left of the main office. All the classrooms are pods. There isn't a computer lab because all the students and teachers have tablets.

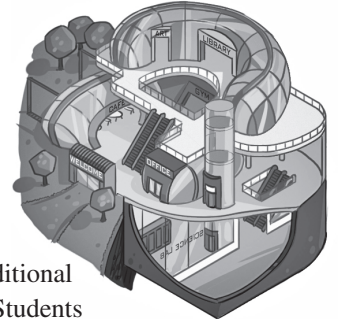

The gym pod is enormous and it's just down the hall from the main office.

The mobile food pod is really the cafeteria. Students eat inside when the weather is cold and wet, or outside in the summer. Right now, it's on the left, across from the main office and next to the gym pod.

Learning pods are all on the first floor. The pods are different colors for different subjects. The art and design pod is like a rainbow.

The book and music pod is a library on the second floor. There are e-books, traditional books, and magazines, too. Students can use their earbuds to listen to e-books or music.

The digital lockers are downstairs next to the science lab pods. Every student has a special wrist band to open their locker. No more keys and key rings!

2. **Interpret and transfer information** According to the information, choose the correct place for each description below.
